Career &

DIGITAL PRINTING

Students develop skills in computer layout and design, presswork, digital platemaking procedures, plate making, and finishing applications. Students learn about safety, history of printing, measurement, layout, color management, customer service, supply management, darkroom processing, press operation and binding & finishing. Students are introduced to Adobe Photoshop, InDesign, and Illustrator. Students explore art design, photography, and marketing and create products such as postcards, brochures, invitations, screen prints, posters and logo design for their professional portfolio. This is a Pima JTED enhanced program and community college credit may be available.
